NOTES:
1. Motors, electric flush valves, & solenoids are connected to controller via drive boards, relays, circuit breakers, & the transformer which are located inside electric controller box. See connection drawing for detailed wiring of components to controller.
2. Motor must rotate counter clockwise from viewpoint for filters that contain a screen with area less than 5.0 sq. ft. (i.e. models LPF-SP, 2-XLP, 3-LP, 3-SP, 4-LPE, 4-P & 6-P). Motor must rotate clockwise for all other filters.
